

## Error Testing Report

Test Case	Description	Expected Result
1. Search for cars	Enter invalid search criteria (e.g. invalid dates, mismatched pickup/drop-off locations).	System should display an error message and prevent the search.
2. Booking a car	Attempt to book a car without filling required fields (e.g., name, payment details).	System should display an error message and prevent booking.
3. Payment Processing	Enter invalid payment details (e.g., expired card, incorrect CVV).	System should display an error message and reject the payment.
4. Cancellation	Attempt to cancel a booking that is already canceled.	System should display an error message (e.g., "Booking already canceled").
